3Shape TRIOS software

3Shape TRIOS Engagement Apps

Apps developed to engage patients and advance treatment acceptance, available on 3Shape Unite.
Included in TRIOS 5, TRIOS 4 and TRIOS 3 subscription.

	TRIOS Patient Monitoring Bring patient care to a new and superior level via detailed monitoring, early detection and effective communication
	TRIOS Treatment Simulator Show patients envisioned result of orthodontic treatment
	Smile Design Design a smile in just minutes and share the photo-realistic images with your patients

TRIOS Clinic Apps

Apps for digital planning and designing – bring your clinic into the digital age.

TRIOS Clinic Apps		Item #
	Model Maker 3Shape Model Maker enables you to produce mandible and maxilla models directly from your TRIOS scans using AI technology. Model Maker generates an STL file that includes the base, drain holes and is automatically hollowed to help you achieve minimal use of resin and reduce production costs.	#N/A
	Implant Planner* For prosthetic driven implant treatment planning (See Appendix B)	#85240040
	Orthodontic Planner* For orthodontic analysis, diagnostic and treatment planning (See Appendix C)	#80245500

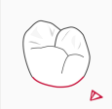

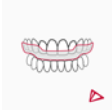

Planner apps can be upgraded to Studio apps (within same app family e.g. Implantology or Orthodontics) and can be purchased anytime.
See TRIOS Price List for more details.

* When combined with TRIOS Cart or 3Shape MOVE+ it is recommended to design on a separate, dedicated PC with mouse and keyboard.
TRIOS Cart/TRIOS MOVE+ is optimized for scanning and patient communication.

3Shape TRIOS software

3Shape TRIOS Studio Apps

Apps developed to enable same-day-dentistry with in-house design and production

TRIOS StudioApps		Item#
	TRIOS DesignStudio* Full same-day dentistry workflow TRIOS scanning, easy designing and milling on integrated 3 rd party mills (See Appendix A)	#80241140
	3Shape ImplantStudio Prosthetic driven implant planning, custom surgical guide design and screw-retained crown design in one workflow, same-day. Manufacture components in-house or send-to partner via .STL export (see Appendix B)	#85240060
	Clear AlignerStudio Full workflow for clear aligner treatments. Build an ideal setup, do the staging with attachments, and digitally prepare the models for production with ID tags, hollowing and wax-up. Access the 'Treatment Review' platform, for easy communication with your preferred lab about treatment objectives and proposals. Includes 2 seats and 750 model exports**	#80245531
	SplintStudio Design and produce a wide range of occlusal splints in a guided, fast and intuitive workflow (See Appendix C)	#80241350

* Requires active TRIOS subscription

When combined with TRIOS Cart or 3Shape MOVE it is recommended to design on a separate, dedicated PC with mouse and keyboard. TRIOS Cart/TRIOS MOVE is optimized for scanning and patient communication.

** 750 model exports are valid for one year. Once they are used up customer can purchase additional model exports with CAD points. Please note that 1 CAD point equals 1 model export (Please see the table on the next page)

CAD Points

Use CAD points for exporting study models, virtual set-ups or importing 3’rd party scans

100 CAD Points	#80248100
200 CAD Points	#80248101
500 CAD Points	#80248102
1.000 CAD Points	#80249946
2.000 CAD Points	#80249947
5.000 CAD Points	#80248121
10.000 CAD Points	#80248122
20.000 CAD Points	#80248123

3Shape TRIOS MOVE+

Gain next-level patient engagement and great ergonomics with 3Shape TRIOS MOVE +. Excite your patients by displaying their scans and treatment designs up-close, and enjoy the ease of always being able to position the set-up in the right place for optimal comfort.

Also available as a stand-alone accessory for all existing TRIOS 3 and TRIOS 4 users
Can be used as a second scanning station or replacement for a PC/CART. Compatible with TRIOS 3 and 4 models.

	Item#

3Shape Post & core scan posts

Post & core scan posts

Used to scan and locate shape and position of the posts. Can be used intraorally and on gypsum models.

Please see Appendix F for details about scan posts.

Appendix A: 3Shape TRIOS Design Studio

Scan

Digital impression
with awardwinning
3Shape TRIOS scanner

Design

Easy design of restoration
with TRIOS Design Studio
software

Produce

Open system – free choice
of Trusted Mill Connection
for an integrated workflow

3Shape TRIOS DesignStudio

Designed for the dental clinic, 3Shape TRIOS Design Studio is an integrated same-day dentistry solution for your TRIOS intra-oral scanner. Choose send-to-lab or in-house workflow in one software solution.

TRIOS Design Studio enables professionals to design and mill crowns, screw-retained crowns*, inlay/onlays, veneers and 3-unit bridges in the clinic in a simple and integrated workflow.

A range of 3rd party Trusted Connection mills are integrated via a validated in-house workflow. STL Export option for both scan and CAD files included for connection to other mills.

See more at 3shape.com/TRIOSdesignstudio

Details

- Exclusively sold with new or existing TRIOS subscriptions
- Full TRIOS Design Studio CAD CAM software included
- 3Shape TRIOS Scan Export (STL) included
- CAD export (STL restoration design file) option included
- Mill specific software license (CAM) may apply – contact reseller/mill manufacturer for information

* Abutment Design for design of screw-retained crowns is not yet cleared for use by the FDA in the USA.

Appendix B:

Implantology

Scan

Digital impressions
with award winning
3Shape TRIOS scanner

Plan

Prosthetic driven
implant planning

Print

Design and print customized
surgical guides

ImplantPlanner

Plan your prosthetic driven implant procedures with the Implant Planner software based on esthetics, intended final restoration, available bone and the overall clinical situation to deliver increased treatment predictability and better outcome.

Details

- Both apps output an implant position file with the associated impression scan, which can be sent to a 3Shape lab system for restorative design
- Both apps can be sold with new or existing 3Shape TRIOS subscriptions or as stand-alone versions – please contact your reseller for stand-alone pricing
- **Implant Planner:** Includes option to send planned case incl. implant position to partners for surgical guide design in Implant Studio
- **Implant Studio:** STL export and CAM software license included for guide and screw-retained crown production – please contact your reseller for more

3Shape ImplantStudio

The Implant Studio software includes all features in the Implant Planner plus the ability to design custom surgical guides as well as screw-retained crowns*. Integrate to 3D printers for in-house production or export .STL files and send-to external partner.

* Abutment Design for design of screw-retained crowns is not yet cleared for use by the FDA in the USA.

Appendix C: Splint Studio

Scan

Digital impression
with awardwinning
3Shape TRIOS scanner

Design

Easy design of wide range
of occlusal splints with Splint
Studio software

Produce

Open system – free choice
to produce in-house or
by your preferred lab

3Shape SplintStudio

3Shape Splint Studio is a go-to solution for clinics and labs that want to treat disorders like bruxism and temporomandibular joint disorder in a simple and guided workflow.

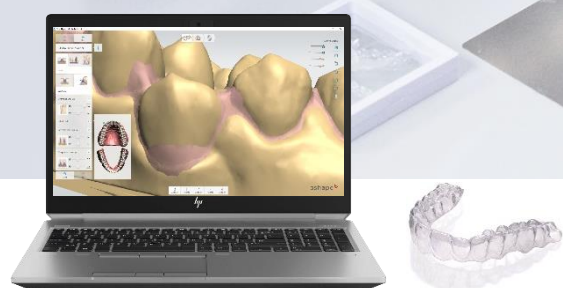

Splint Studio enables dental professionals to design and print or mill a wide variety of occlusal splints, mouth guards and night guards.

See more at 3shape.com/en/software/splint-studio

Details

- Optimized setting for a wide range of materials, printers and milling machines, a built-in virtual articulator, direct integration to 3Shape TRIOS and 3Shape lab scanners
- 3Shape Splint Studio Export (STL) included
- App can be sold with new or existing 3Shape TRIOS subscriptions or as stand-alone version – please contact your reseller for stand-alone pricing

Appendix D: Clear Aligner Studio

Scan

Digital impressions
with award winning
3Shape TRIOS scanner

Design

Design clear aligner models
with powerful tools

Produce

Produce clear aligners with open
choice of 3rd party manufacturing
equipment

3Shape Clear Aligner Studio

Full workflow for clear aligner treatment planning and approval, with powerful automated features that increase productivity. Create an ideal setup, do the staging and digitally prepare the models for production with ID tags, automated hollowing and wax-up. Access the 'Treatment Review' platform, for easy communication with the prescribing doctor about treatment proposals and final approval.

Details

- Easy collaboration and review process between labs and clinics via the Treatment Review portal.
- Powerful automated tools like auto-segmentation, digital wax-up and hollowing of models help increase productivity.
- Material savings enabled with new hollowing of models feature.
- Users have 750 model exports available per year. once used up, additional CAD points can be purchased. This also enables continuous use of new automatic features.
- 3Shape Clear Aligner Studio can be sold with new or existing 3Shape TRIOS and lab scanners subscriptions or as stand-alone versions – please contact your reseller for stand-alone pricing

Appendix G: 3Shape TRIOS Tech Specs

3Shape TRIOS 5

Grip	Pen
Scannerweight	299 g (including battery)
WirelessTechnology	5GHz wireless connection link using dedicated access point (802.11AC)
WirelessRange	Same room, up to 15 meters. Scanning over WiFi possible with TRIOS Share .
Batterytime	Instant tip heating and up to 66 min of continuous scanning (for a new battery) ¹
Battery chargingtime	80 % charged after 60 minutes. Fully charged in less than 2 hours.
Batterylifetime	Approximately 80% after 600 cycles and 70% after 1000 cycles.
External buttons and connection	Scan activation button (on scanner hand piece) and a button for navigation
Environmental requirements	Operating, storage and transport conditions: See safety & setup guide*
Powersupply	See Safety & setup guide*
Approvals	See Safety & setup guide*
Currently supported indications (Local restrictions may apply)	Restorations: Bridges (up to 5 units), diagnostic wax-ups and digital temps, inlays, onlays, post & core, removable partial dentures, single crowns, veneers Orthodontics: Orthodontic appliances Implantology: Implants (single abutments), implant bars and bridges (up to 3 units), implant planning and surgical guides Assessment of dental status.
Supported scannable materials	In general, all materials are supported, except gemstones on the teeth, some semi-transparent ortho brackets and extremely high gloss metals
Contrast agent applied to teeth	None (powder/spray free)
Accuracy	For detailed results and references to clinical studies on IOS accuracy, you can browse 3Shape TRIOS Clinical Studies – most recent version can be found on 3Shape.com
Scanner tip	Removable smart tip w. built-in instant heating. Sterilizable by autoclave. May be placed on 2 positions; Scanning up or downwards.
Output format	DCM, STL, and PLY
Scan Engine	Scan Assist
Light source	White and Blue LED

* Safety & Setup Guide: Most recent version is found on 3Shape Partner Portal
¹Data on file: test results and range.
